PROJECTS

Job Hunt ([Link](#)):

Implemented Job Hunt App where users can log in and can see a list of jobs with search by Job title, filters based on Salary range and Employment type, etc. Implemented different pages like Login, Home, Jobs, Job item details using React components, props, state, lists, event handlers, form inputs. Authenticating by taking username, password and doing login post HTTP API Call. Persisted user login state by keeping jwt token in client storage, sending it in headers of further API calls to authorize the user.

Tools USED:

- **Frontend:** React Js, JavaScript, CSS
- **Backend:** Node.js, APIs (job data)

GPS-Based Face Recognition Attendance System ([Link-](#)):

The "GPS-based Face-recognition Attendance System" performs the function of recording feminine students' attendees with the help of geographical location information and facial coordination. Such a system takes the coordinator in charge of monitoring whether the student is within the designated area for class attendance and whether that student is really who he or she claims to be in person. Flask is the backend framework and the student's information is stored in the MySQL database.

Tools USED:

- **Fronted** : React Js , CSS, JavaScript
- **Backend** : Python Flask , MySQL

CERTIFICATIONS

- **React.js Certification** from NxtWave
- **Frontend Developer (React) Certification** from HackerRank
- **Introduction to Databases Certification** from NxtWave
- **Programming Foundations with Python Certification** from NxtWave
- Completed Certification "Build Your Own Responsive Website HTML, CSS, Bootstrap, Flexbox" from NxtWave

TECHNICAL SKILLS

- **Programming Language:** Python
- **Web Development Tools:** HTML, CSS, Bootstrap, JavaScript, React Js, Node.js.
- **Database Tools:** MySQL

STRENGTHS

- Strong team working skills
- Willing to work in rotational shifts.
- Willing to relocate.
- Able to work under Pressure.
